

Loc-Line® is sized by the smallest hole through the part. As an example a quarter inch rod will fit through a Quarter Inch part.

Most customers find it convenient to measure the largest outside diameter of the parts. We offer the following image to help you determine what size of Loc-Line you need.

1/4" ID Loc-Line

1/2" ID Loc-Line

3/4" ID Loc-Line

2-1/2" ID Loc-Line
